

SUMMER SOCIOLOGY **SUBCULTURE COLLAGE**

Today you will use the information that you gathered yesterday and the additional information from today to create a subculture collage. Your project must include the following parts:

- ★ Definition of culture
- ★ Definition of subculture
- ★ Major characteristics of the subculture
 - Language
 - Who is involved in the group/Why?
 - Clothes
 - Where these groups can be found
 - Why the groups were created
 - Are the members connected with positive or negative things around the United States? (example: KKK--violence and cross burning--negative)

Once you have found all your information begin to plan how you are going to bring all the facts together in an artistic form (words, pictures, colors, numbers, photos, etc.).

PLEASE keep track of **ALL** of your resources web address so if we have to find the web page we won't have to search.
